

Applicant : Ramin Samadani  
Serial No. : 10/620,937  
Filed : July 16, 2003  
Page : 9 of 9

Attorney's Docket No.: 100110275-1  
Amendment dated Oct. 29, 2008  
Reply to Office action dated March 28, 2007

**Remarks**

Claims 1-22 were pending.

Claims 1, 10, and 19 have been canceled without prejudice.

Claims 2, 7, 11, 16, and 20 have been rewritten in independent form in response to the Examiner's indication that these claims would be allowable if rewritten in independent form including all the elements of the base claim and any intervening claims.

Claims 3-6 now depend from claim 2, claims 8 and 9 depend from claim 7, claims 12-15 now depend from claim 11, claims 17 and 18 depend from claim 16, and claim 21 depends from claim 20. Therefore, claims 3-6, 8-9, 12-15, 17-18, and 21 are patentable over Parke and Turner for at least the same reasons as claims 2, 11, 16, and 20, respectively.

Claim 22 has been amended and now recites that "the producing comprises combining the spatially aligned first and second spatial frequency components based on measures of confidence in the estimates of motion." Neither Parke nor Turner discloses or suggests this element of claim 22 for essentially the same reasons that these references fail to disclose or suggest the "controller" element of claim 1, the "controlling" element of claim 11, and the "combiner" element of 20.

For the reasons explained above, all of the pending claims are now in condition for allowance and should be allowed.

Charge any excess fees or apply any credits to Deposit Account No. 08-2025.

Respectfully submitted,

Date: October 29, 2008
